Holiday Shores Snow & Ice Procedures

Snow plowing and ice control begins when there is two inches of snow and more is expected or when ice begins to make the roads hazardous. Ice control material is applied to locations on an “as needed” basis. It takes 4-5 hours to plow the entire community with only two inches of snow. Salt will be used sparingly this year due to increased costs. Please be careful.

DO NOT CALL THE OFFICE TO SEE IF THE SNOW PLOWS ARE OUT OR TO REPORT SNOW. PLEASE BE PATIENT.

Which roads are plowed first?

Heavy traffic hills and main roads are plowed first.

HILLS

Gate J – Blvd De Cannes and St. James

Blvd De Cannes and Elm

Gate M – Holiday Point Pkwy and St. James

Intersection at Holiday Point Pkwy and Barbados

Intersection of Catalina and Holiday Point Pkwy

Gate N – Reno Court

Gate O – Carribean

The hill before Carribean and Biscay

The hill on Fountainbleu EAST of Captains

The curve on Fountainbleu just before Gate G

The hill at the interestion of Anchor and Brigantine

The hill on Sextant between Port Lane and Commodore

PRIORITY 1 ROADS

Cedar Lane, Shore Dr, Holiday Dr, Elm, Blvd De Cannes, Newport Bay, Holiday Point Pkwy, Carribean, Biscay, Waikiki, Castle, High Point, Su Twan, Fountainbleu, Treasure, Tamarach, Overlook and Birch.

What cautions should I be aware of?

Do not park on the road during the snow removal process. Do not push snow onto the roadway! This creates a very hazardous condition.

What about driveways?

Maintenance personnel are not authorized to plow driveways and plows will not be lifted at the entrance to each individual driveway.

Clearance of driveway entrances is the responsibility of the resident. Plows may make several passes in order to widen the roads.

What about mailboxes?

The truck will get as close to the mailboxes as possible. It is the homeowner’s responsibility to keep the area in front of the mailbox cleared. Keep mailboxes closed at all times.

What about trashcans on pick up days?

Trashcans and recycle containers must be 4’ off the road. The snowplow drivers will not get out to move your containers and will not be responsible for damage.

USE CAUTION!

When maintenance is out on the roads, stay a safe distance behind the trucks. If you cannot see the mirrors on the trucks, they will not be able to see you.

PLEASE BE PATIENT AND COURTEOUS

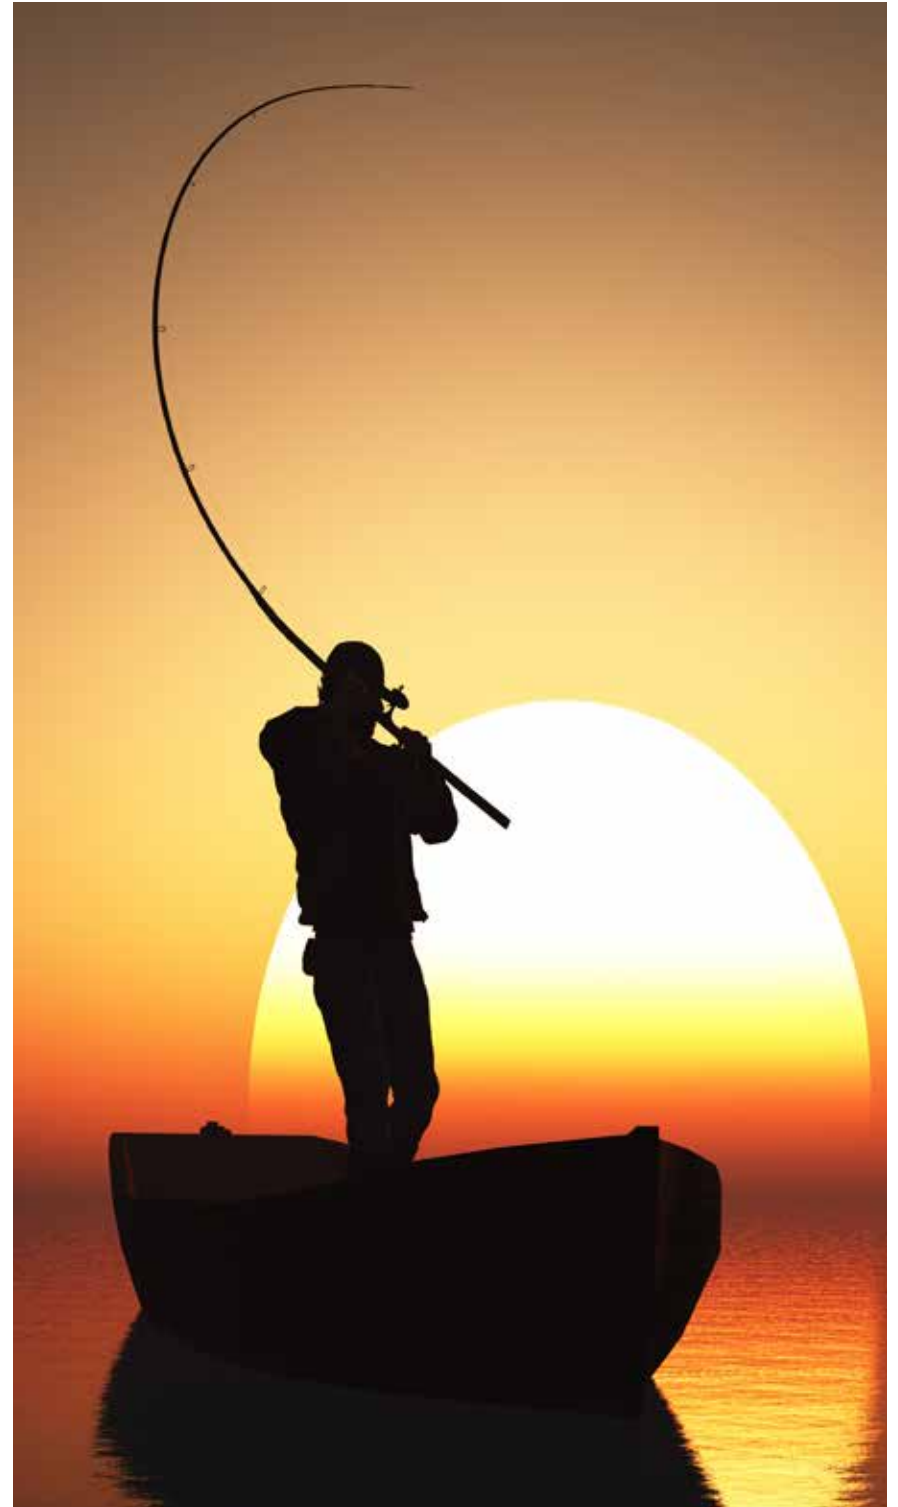

Manager's Report *by Rob Clarkson*

Our lake is at full pool due to the recent rains. With 2020 being a draw down year we ask all Lake front property owners to start planning to repair docks and sea walls. This is a short window of opportunity once it has begun so don't get caught behind the curve. Start your permit applications early and avoid delays. Rip Rap and Soil cloth will be available for purchase from the Association as always.

We have experienced yet more damage on the soccer fields due to wet conditions and vehicles being driven off the road. Please exercise common sense during wet weather conditions and refrain from taking vehicles off the roadway. Deliberate damage will be investigated and charges filed.

We are continuing our collection efforts. Members who may have difficulty staying current with this requirement should contact the office and communicate with us any special needs. Dues and Assessments come due January 1st.

2019 is almost behind us and we have made great strides as an association to curtail costs, repair our roads, and sustain the natural beauty of our community. In 2020 we will continue these efforts and try to make our community a safer place for all who live here to enjoy. We face many challenges with respect to boating, slow moving vehicles, code enforcement etc. Please be patient and understand that Public Safety officers are just performing their job duties as outlined in our Covenants, By-Laws, and Rules.

REMINDER

2020 Dues & Assessments are due January 1st.

They can be paid in increments of:

\$236.00 January 1st

\$237.00 March 1st

\$237.00 May 1st

Late charges are assessed on the 10th of each month.

BOAT DECALS

2020 boating decals are yellow. If you can not wait to be the first on the lake with your 2020 boating decal, bring in to the office a copy of your registration and proof of \$300,000 liability insurance as soon as your Dues & Assessments are paid in full. There will be three types of decals, motorized, non-motorized and PWC.

CHRISTMAS TREE DROP OFF

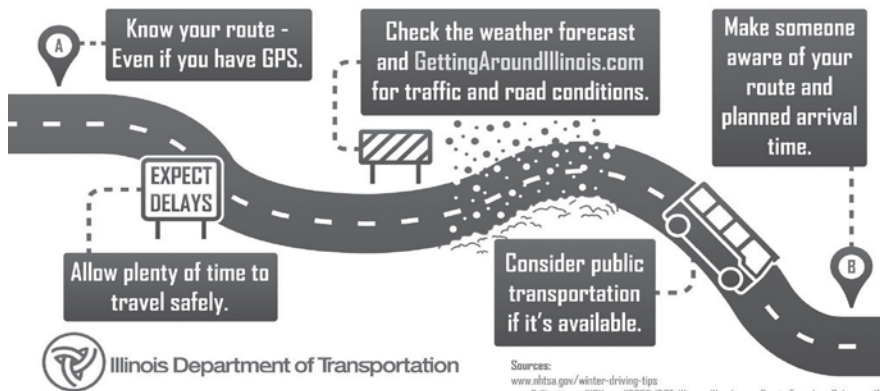

Christmas Trees can be dropped off at the Maintenance Shed on St. James Drive. There will be a sign stating where they should be left.

Holishor will chip them for mulch. Please remove all ornaments, tinsel and lights.
DO NOT PUT YOUR TREES IN THE LAKE!

PLAN AHEAD FOR WINTER TRAVEL

Holiday Shores Garden CLUB NEWS

As the yearly activities concluded at the party, gardeners begin their winter break now, and there will be **NO meetings in January, February & March 2020**. However, this does not mean that the members are idle during this time. A planning meeting for the upcoming year took place in late December and a number of exciting programs are being scheduled for 2020. Watch the newsletter for upcoming announcements!

Officers for 2020 were installed:

Co-presidents	Joyce Brendle & Donna Nelson
Vice President	Patti Brown
Co-secretaries	Kathy Austin & Pam Barry
Treasurer	Jan Tolliver

As the yearly activities concluded at the party, gardeners begin their winter break now, and there will be **NO meetings in January, February & March 2020**. However, this does not mean that the members are idle during this time. A planning meeting for the upcoming year took place in late December and a number of exciting programs are being scheduled for 2020. Watch the newsletter for upcoming announcements!

The main fundraiser for the Garden Club is the annual Plant Sale, which will be held this year on **Friday, May 1st** in conjunction with the fish fry sponsored by the Holiday Shores Volunteer Fire Department at their location. There will be numerous perennials from local gardens available for purchase, as well as beautiful geraniums, annuals, and lots of raffle items. **This is an important date for both groups, so please mark your 2020 calendars now.**

Garden Club monthly meetings are very informative on a variety of topics, and others are just plain “fun”, where members join in fellowship with a common interest. Unless specified, most gatherings are held at the clubhouse on the third Monday of the month. New faces are always welcome at any club activity, and additional members are especially needed to be able to continue with the beautification efforts throughout the community. This is an all-volunteer group of dedicated people who provide a much needed community service in Holiday Shores. Hope some of you will consider joining this year!

Christmas Party hostesses: Patti Brown and Joyce Brendle. Everyone enjoyed a potluck of delicious appetizers, drinks, and yummy desserts, followed by festive games and the annual gift exchange. The holiday spirit was evident by all who attended!

January Garden Tip: Keep walks and plants safe. Instead of sodium chloride rock salt for your icy walks and drives, use calcium chloride, sand or even kitty litter as it is less harmful to concrete and plants. **Mulch with snow!** Perennials love snow. When shoveling, as long as the snow doesn't have salt in it and isn't slushy, don't worry about tossing it onto perennials and small shrubs. Fluffy snow insulates against weather extremes.

Happy New Year to All!

BREAKFAST WITH SANTA 2019

A VERY SPECIAL THANK YOU TO WIGGLERS FOR CATERING AND OF COURSE, OUR VOLUNTEERS!

Holiday Shores Board of Directors Meeting

Date: November 13, 2019

Attendance

Present: Dave Decker, Monica O'Brien, Tony Harris, Steve Yates, Matt Ressler and Anthony Harrell

Excused Absence: Ali DeVries

Quorum Present: Yes

Others Present

Rob Clarkson and Megan Jackson from the Holishor Office

Holishor Members Present: 2

Proceedings

Meeting called to order at 7:30 PM

Pledge of Allegiance recited

Meeting Minutes of October 23, 2019

Steve Yates – Motions to approve the minutes as amended.

Tony Harris – Seconds.

All in Favor.

Motion Carries.

Transfers of Property

There are four transfers of property. There are three houses and one lot, all which triggered initiation fees.

Bills & Salaries

Monica O'Brien – Motions to approve Bills & Salaries as submitted.

Matt Ressler – Seconds.

All in Favor.

Motion Carries.

Profit & Loss

Submitted for review

Manager's Report

Read by Rob Clarkson

Public Safety Report

Read by Rob Clarkson

Old Business

Golf Carts/Slow Moving Vehicles

Dave Decker – We have the proposed rule in front of us. Does anyone have any questions or comments?

Verbiage discussion ensues.

Golf carts and all-terrain vehicles with valid Holishor decals and lot numbers be allowed on Holiday Shores roads where posted speed limit is 35 miles or less. Operators and the slow-moving vehicles must meet the requirements as set out in accordance to IL statute (625 ILCS 5/11-1426.1) Vehicle operators must have a valid state driver's license. The vehicle at a minimum, must have the following: brakes, a steering apparatus, tires, a rearview mirror, red reflectorized warning devices in the front and rear, a slow moving emblem on the rear of the non-highway vehicle, a headlight that emits a white light visible from a distance of 500 feet to the front, a tail lamp that emits a red light visible from at least 100 feet from the rear, brake lights, and turn signals. When operated on a roadway, a non-highway vehicle shall have its headlight and tail lamps lighted. The state requires proof of minimum liability insurance coverage carried within the vehicle.

Members in good standing must purchase Holishor decals for the golf carts and all-terrain vehicles that meet minimum safety requirements in the Holishor office for \$15 annually.

2019 Ditching Project

Dave Decker – At the last meeting, we had a bid opening. We had one bidder and we turned that over to the office for their review. We also have a write up from Rob Clarkson in front of us.

Tony Harris – In previous meetings, we discussed the estimates that we had from the prior engineering firm until we got the bids in. I know we were thinking the bid would be less than what the firm had proposed. It looks like we are coming back in total more.

Rob Clarkson – I think it's the fact that we only had one bidder. If we had more bidders, we would have seen a significant difference.

Steve Yates – Was timing of the bids an issue?

Rob Clarkson – One of them actually told me they work with the bidder that we got. When they found out they were bidding it, they backed out because they did not want to lose work over it.

Steve Yates – I understand.

Rob Clarkson – The others, I don't know why they didn't turn them in. They seemed very interested. I just can't believe everyone is that busy. **Dave Decker** – I'm confused reading your write up. I thought this bid was under what we had estimated?

Rob Clarkson – It is under what we estimated from the old engineering. We took out some of the work to make it even cheaper. Going forward, it's hard to see what culvert pipes are actually good. Based on the engineer's recommendation was to take all of them out and replace them. The driveways, some of them did not get culverts put back in but it was to remove them in piece, and we decide which ones are good. We would then stock pile them for the next section in the lieu of buying new ones. There is an awful lot of culvert pipes in this plan.

Dave Decker – The bid we submitted included the removing of the culverts or did not include them?

Rob Clarkson – They removed every single one is what this bid is and replacing them. We would stock pile the good ones that came out to use later down the road. Up front, we would pay quite a bit for culvert replacements. The only thing we had them replacing as far as driveways went was an asphalt driveway or rock. The concrete where they cut, we are going to have our crew come pour that concrete to save money from the contractor doing it. The seeding, we are going to come in behind them and seed instead of paying them to do so.

Dave Decker – I wasn't aware we were planning on doing our own concrete work. I personally wouldn't have liked that idea. Our maintenance guys are not concrete guys.

Anthony Harrell – Are you saying the original quote they gave us included concrete?

Rob Clarkson – No, it didn't. We also added three culverts to the plan from the original bid which made our bid higher than the

original.

Dave Decker – Just for your knowledge because you were not involved at the time, when they did the work and had the bids done for replacing culverts on the road replacement efforts, the estimate from the Association was higher than it was from the vendor to replace them.

Rob Clarkson – Ok. My point was that we added three culverts.

Dave Decker – I get that we added that but that was part of the bid going out, right? I'm just surprised that we took out the concrete work from the bid we were submitting out. What I would recommend in the future if we are thinking about doing that, put that on as an add-on so you have a choice to see what their cost is, and we can see whether or not we can do better. What is the estimate that we believe the concrete work is going to be?

Rob Clarkson – I am still working on that and going over square yardage for what the concrete cost will be.

Dave Decker – What's the Board's thoughts on having our crew doing concrete driveways?

Tony Harris – I would like to get an additional bid from these guys to see what they would charge. All we have is the engineer's estimate, it would be nice to see what these guys are going to charge so we have a comparison number.

Rob Clarkson – It's a three-foot cut on a driveway.

Monica O'Brien – My concern would be quality, but I know a lot of these driveways on Clover are not high quality at all.

Dave Decker – But if we are putting them in, they better be. We can't put in low quality concrete work.

Tony Harris – I would hope for a three or four-foot-wide cut, it shouldn't be that bad.

Dave Decker – How many are we talking about?

Rob Clarkson – I've gone out and looked at six of them already. Not all of them are double driveways either. I'll have a number for you at the next meeting of the exact cost it would be for us to do it minus the labor.

Tony Harris – It shouldn't be that hard to pour. Especially pouring edge to edge and your elevations are already there.

Rob Clarkson – That's what I thought.

Matt Ressler – I'm fine with us doing it.

Steve Yates – I don't see any reason why we couldn't do it.

Monica O'Brien – That's what I'm hearing. I feel like you guys know what you are doing.

Steve Yates – My only draw back of us doing it is if you put it in and

SAVE THE DATE

Holiday Shores SENIORS

Service will run as scheduled all week. Please place your cans out by 6 A.M. for pick up.

Happy Memorial Day from Republic Services.

NEW YEAR'S DAY - January 01, 2020

Residential - Service will run one day behind throughout the holiday week, beginning with services scheduled for the holiday.

Business Small Container - Service scheduled on the holiday will be collected one day later. Scheduled customers for the rest of the week anticipate regular service day or one day later.

Large Container (Industrial) - Service scheduled on the holiday will be collected one day later. Scheduled customers for the remainder of the week will receive service as normally scheduled.

There will be no collection on New Years Day. Service will run one day late. Monday and Tuesday customers will be collected on their respective days, Wednesday customers will be collected on Thursday, and so on. Please place your cans out by 6 A.M. for pick up.

Happy New Years from Republic Services.

PRESIDENTS DAY - February 17, 2020

Residential, Business Small Container and Large Container (Industrial) - Services will run as regularly scheduled. There will be no interruption of service due to the holiday.

Service will be run as scheduled all week. Please place your cans out by 6 A.M. for pick up.

Happy Presidents Day from Republic Services.

INDEPENDENCE DAY - July 04, 2020

Residential, Business Small Container and Large Container (Industrial) - Services will run as regularly scheduled. There will be no interruption of service due to the holiday.

Service will be run as scheduled all week. Please place your cans out by 6 A.M. for pick up.

Happy Independence Day from Republic Services.

Firefighter's Footnote & Medic Minute

2019 was a busy year for the Holiday Shores Volunteer Fire Department. We held several fundraisers, helped out at many Holiday Shores functions, had many training events and went on various service runs. To date (as this is written, the year is not yet over), we have made 204 calls for the year. They include: medical calls, fires, motor vehicle accidents, lift assists, assisting other agencies, CO detector checks, and downed power lines. In December, we had our department Christmas party where Santa made a visit and passed out presents. We also held our annual trustee Christmas dinner at the Clubhouse. We had a Fire Trivia night at the station along with a few make-up dates to finish our required training. On Saturday, January 25th we will hold our annual fundraiser - our Chicken and Beer Dance with tickets \$25 each for those age 21 and over. Dinner starts serving at 6:30pm with chicken, fries, beer and soda provided - bring a side dish if you want. The entertainment will be provided by The Owlz Band. Call Mark for tickets at 618-444-6056. We here at HSFV hope everyone had a Merry Christmas and that 2020 brings you a very safe, healthy and Happy New Year!

Medic Minute - Frost Nip/Frostbite - The differences between frost nip and frost bite are the severity of the injury. Frost nip is an injury that occurs on the surface of the skin and doesn't affect the deeper layers. Frostbite happens when the body part freezes as a result of prolonged exposure to cold, and then develops ice crystals within the cells, which rupture and causes cell death. Frost bite skin is pale or blue, stiff or rubbery to the touch, and feels cold and numb. There may be loss of function in the frozen area, and blisters may develop as the frost bitten area warms.

To prevent skin damage you should stay dry and out of the wind in extreme cold, and cover exposed skin. To keep the body's core temperature up: wear layers of clothing -

wool and polypropylene are good insulators, wear wind and water proof outer layers and wool socks, and well-fitting waterproof boots; wear a hat to prevent heat loss from your head and mittens rather than gloves to protect fingers; keep protective clothing and blankets in your car in case of a break down in an isolated area; and don't drink alcohol or smoke when out in extreme cold.

Home treatments include: get inside or take shelter from the wind; check for hypothermia and treat it before treating frostbite; don't re-warm the area if refreezing is possible - wait until you reach shelter; warm small areas (such as ears, face, nose, fingers and toes) with warm breath or by tucking hands or feet inside warm clothing next to bare skin - protect the frozen body part from further exposure and if possible, immerse the body part in warm water (104-108 degrees) for 15-30 minutes; don't rub or massage the frozen area, as it will further damage tissue - avoid walking on frostbitten feet if possible; keep the frost bitten part warm and elevated - wrap with blankets or soft material to prevent bruising; blisters may appear as the skin warms - the skin may turn red, burn, tingle, or be very painful, and an over-the-counter pain reliever may help.

Call your health provider if: the skin is white or blue, hard and cold - rewarming under the care of a professional and antibiotic treatment are needed to prevent infection and permanent tissue damage; if blisters develop during rewarming - don't break them as the risk of infection is very high; or if signs of infection develop - increased pain, swelling, redness or tenderness, heat or red streaks extend from the area, discharge or pus, or fever of 100 degrees or higher with no other cause.

Hypothermia - Hypothermia occurs when the body loses heat faster than it can be produced by muscle contractions and shivering, and the body temperature drops below normal. It is an emergency and can quickly lead to unconsciousness and death if the heat loss continues. Early symptoms of hypothermia include shivering, cold and pale skin, sleepiness or lethargy, and impaired judgment. Later symptoms include cold abdomen, slow pulse and breathing, weakness or drowsiness, and confusion. Shivering may stop if the core body temperature drops below 96 degrees. People who have heart disease, diabetes, and are inactive are at increased risk of hypothermia, along with those taking narcotics, barbiturates, and sleeping pills. Certain medications used to treat anxiety, high blood pressure, and depression can also

put you at increased risk. Some older adults may be less likely to notice cool temperatures, and they may not maintain a normal body temp as well. Indoor temperatures below 65 degrees also increases the risk. Set your thermostat at 65 degrees or higher, or wear several layers of warm clothes, eat regularly, get up and move around frequently, wear warm clothes to bed with several blankets, and if heating your whole house is a problem, then heat just a couple rooms and close off the others.

When outdoors for long periods, take the following precautions: dress warmly and wear wind and waterproof clothing, and wear fabric that remains warm even when wet such as wool or polypropylene; keep protective clothing and blankets in your car for emergencies; wear a warm hat since you can lose about 10% of your body heat through your head; get to some shelter and put on warm dry clothing; eat well before going out since your body uses calories to produce heat (preferably protein); don't drink alcohol as this makes your lose heat faster and you may not notice that you are becoming chilled.

The goal of treating hypothermia is to stop additional heat loss and to slowly rewarm them -

At 3:30am on August 30th, I woke to someone pounding on my front door. After arming myself, I went to the front door to confront the person screaming incoherently and pounding away. Every so often I heard a popping sound coming from the far end of the house. I opened the door to find my neighbor, Gary Henderson looking anxious and shouting, "your house is on fire, your house is on fire." Quickly, we gathered our dogs and ran outside. Gary explained that he looked out his bedroom window and noticed our entire back yard lit up and realized the southwest corner of the house was ablaze. He sprinted past our house and alarmed our next-door neighbors, Dan and Terri Corey. Both families called 911, the early warning by Gary got us out of the house before smoke got to our bedroom, all living things got out unharmed.

The Holiday Shores Fire Department led by Chief Steve Cooper arrived promptly followed by neighboring departments that Chief Cooper notified after he saw the extent of the fire. The Holiday Shores Department operated quickly and efficiently. It was an impressive show to watch them go about their work to save the house. Within forty-five minutes of arrival, the fire was out, and the crews were securing their gear. At its peak, the fire was nearly under the roof, if it got under the roof the damage would have quickly been more extensive.

Karen and I wish to thank our good neighbors Gary and Mary Henderson and Dan and Terri Corey for rushing to our aid in the middle of the night. We also thank the Holiday Shores Fire Department and Chief Cooper for their extraordinary ability and professionalism in saving our home.

Sincerely, Ron and Karen Eberhart

the top pops off of it and the homeowner wants it replaced, it is still going to be our labor again and our complaint. Just something to think about.

Anthony Harrell – With concrete, you are guaranteed two things, it's going to get hard and it's going to crack.

Dave Decker – That's part of the point, it's going to crack and how we would handle that moving forward. What I heard is get a bid from Stutz along with a bid you're going to put together for having our staff do the work. What I heard from the Board is they don't have any objections to our staff doing the work.

Tony Harris – I don't have a problem with it.

Dave Decker – What was our budgeted amount for this?

Rob Clarkson – I'm pretty sure it was \$140,000 and we are right underneath it.

Dave Decker – We are right underneath it without the concrete work.

Rob Clarkson – That is also without the three additional culverts that was added to the plan.

Dave Decker – I thought we added the additional three culverts to the bid?

Rob Clarkson – It was in the bid, we did not have it in the original plan.

Dave Decker – But they are in the bid?

Rob Clarkson – Yes.

Dave Decker – What kind of timeline do we have in regard to accept Stutz bid? If we decided on this in December or January, that's not an issue?

Rob Clarkson – They didn't tell me that it would be. All I was told that they would have it done from their start date to forty-nine days.

Dave Decker – How are we doing on the county grant work?

Rob Clarkson – We are just about finished.

New Business

Madison County Sheriff Patrol Report

Dave Decker – We have in our packets the report from the Sheriff's Office from the two patrol requests of them coming out here.

Matt Ressler – Madison County was out here on two different occasions. There were ten citations written and three warnings given over that period of time. Since they have been out here, my phone has stopped ringing quite a bit. We have two more patrols here in the near future also. One issue I would like to address possibly getting a new agreement with the Sheriff's Office that is more updated.

Dave Decker – We will reach out to our lawyer for a starting point on that.

Ballroom Waiver Request from HSF

Dave Decker – The Fire Department is requesting a rental waiver for two of their annual events. The first one is their Christmas dinner and award night. The second is their largest fundraiser which is their Chicken & Beer Dance. The Christmas dinner is December 17th and the Chicken & Beer Dance is scheduled for January 25th. I expect they have talked to the office about the availability of these dates, this is just a request for their rental waiver. They will still pay for their cleaning and alcohol fees.

Steve Yates – Motions to approve the ballroom waiver request as submitted.

Anthony Harrell – Seconds.

All in Favor.

Motion Carries.

Open Floor

Derelict Vehicles

Matt Ressler – Derelict vehicles in driveways. I have noticed members are putting tape over their license plates and backing them into their driveways so we cannot see the stickers. It is my understanding that only currently registered vehicles can be parked on your property. Can we as an Association send those individuals a letter to have them bring current proof of registration to the office? We cannot get on their property to check ourselves. We have vehicles around the community backed into the driveway that have been sitting for six months or more.

Monica O'Brien – Are we talking about ones that we have complaints on or just in general?

Anthony Harrell – Is this something Public Safety runs across often?

Dave Decker – They have been more diligent in their efforts to identify derelict vehicles. As they have been doing that, I expect they have noticed other vehicles that are very stationary and unable to see license plates to where the suspect they are not registered vehicles in working or non-working condition. Is that correct, Rob?

Rob Clarkson – Yes.

Monica O'Brien – I don't see why we couldn't send a letter or a phone call.

Matt Ressler – Can we have them bring proof of current

registration?

Monica O'Brien - If we feel that it's not.

Dave Decker - We do have rules that says it's required, and if we decide that is the thing to do then we can do that.

Tony Harris - When you say derelict, does that also mean vehicles that are not in good shape?

Dave Decker - I have seen a couple that have been sitting for at least six years or more.

Matt Ressler - So we can have Public Safety go out and provide addresses so we can start the fine process?

Dave Decker - They can always appeal the citation if they were to be issued one. Jerry Theodore, 1346 - I wouldn't narrow it down to just vehicles. I have noticed many boats and trailers out here that are derelict.

Rob Clarkson - Derelict vehicles include all trailers and watercraft. Boats are a lot easier because they have stickers on both sides.

Dave Decker - I am not hearing any objections.

Anthony Harrell - Nope.

Tony Harris - Not at all.

Steve Yates - Motions to adjourn to Executive Session.

Monica O'Brien - Seconds.

Keeping Us Out of the Fire

Is the God of the Bible just an impulsive, capricious fool who is really at fault for human sin and wrong? That view looks like this. God makes up a bunch of senseless rules like 'I don't like red shoes' and 'nobody shall wear them' and 'disobedient people who do will go to hell.' But then God loves the sinner so much that he kills his Son, Jesus, in his place taking his penalty so that the sinner doesn't have to die. What a stupid God, they say. If only He hadn't made that senseless rule in the first place....

But that doesn't at all picture what God has done. Rather, it's like this. You are out camping alone in a forested area. You build a fire one morning to enjoy bacon and eggs. You leave the campsite for a hike but fail to extinguish your campfire. A couple of hours later you look back toward your campsite and see fire along the tree tops and smoke pouring into the sky. You realize it is your fire, out of control. To your horror, you see that the wind is blowing the flames in your direction and it's coming fast! You can't outrun it. If things continue as they are, death is certain. And it will be horrible death. And it's all your fault.

You start to feel the heat from the flames. There is no way out. The fire you set is going to come back and kill you. Then someone appears, racing toward you. He is strong and young. He grabs you, wraps you in his own personal fireproof blanket and pushes you onto the ground. Finally the fire passes. The heat diminishes. It's over. You peek out of the blanket and see a body on the ground. Then it hits you, your rescuer gave his shield and his life so that you could be saved.

That's really the way it is. The sinful things we do in life, light a fire that eventually comes to destroy us. Jesus is the only One who can save us from the inferno of our sin. This he does at the cost of his own life. There is nothing stupid about this, just a demonstration of love and compassion.

To talk about this or other Bible matters, call Pastor Rob at 618.377.7729.

NEW RULE CHANGES

EFFECTIVE JANUARY 2020

Prohibited Watercraft

The following watercraft shall not be allowed on Holiday and Su Twan Lakes:

Watercraft with open unrestricted exhaust or without a muffler system is prohibited. The use of optional unrestricted exhaust on watercraft so equipped is prohibited. (Boats as listed above registered with the Association prior to 3/26/97 are grandfathered.)

- Drag boats or racing boats.
- Boats with head facilities on board which are not self-contained systems.
- 2 stroke PWC's greater than 85HP.
- **4 stroke PWC's greater than 150HP.**
- Personal Hovercrafts. (Ref Board of Directors Meeting 3/8/95)
- Any watercraft except tubular bottom pontoon boats with a Length Overall greater than 22 feet (ref. size limits section).
- Any tubular bottom pontoon boats with a Length Overall greater than 28 feet Length (ref. size limits section).

(Board of Directors Meeting August 28, 2019)

Holiday Shores Watercraft Test

Individuals ages sixteen and under are required to take the Holiday Shores Watercraft Test before operating a motorized watercraft on Holiday and Su Twan Lake. The test format will be open, meaning it can be printed online or given from the Holishor Office and then graded by the Holishor Office. The test will only be required once unless a moving violation has occurred. If a moving violation has occurred, the violator and the member will be required to retake the test prior to operating a motorized watercraft.
